

Software Class—Creating Appliqués

Tuesday, August 23, 2011

10-3 pm

Price: \$10.00

Description: This is a special that was put together to introduce Software Sampler to people who have not been able to attend it in the past. The lesson is taken directly from the Software Sampler that was done last January. Everyone who attends will get the CD with all of the handouts, a video and designs. This is a hands-on class and by the time you leave you should be able to easily create appliqués from clipart. As a bonus, you will also get to see a demonstration of how easily you could use your Cutwork Software to cut out your appliqué.

Techniques Explored: Creating appliqués in the Bernina Designer V6.0 software.

Supply List

Laptop computer with Designer V6.0 installed

V6.0 dongle

Pencil and paper

Don't forget to bring your lunch.
