In the past many of the projects that people have worked on were kits that were purchased at the store, projects that were started in classes but never finished, projects from classes that they were not able to attend or simply a project that never became a class.

Techniques Explored: Any piecing, appliqué, cutting, quilting technique that you require.

Supply List

The supply list is determined by the project you are working on. Each student will be responsible for bringing the items that are necessary for her particular project. When you sign up and have your project approved, we can give you ideas about the items you might need to bring to class.
